From weatherproof sound systems, a table that extends to fit up to 14 guests, to elegant in-pool lounges (yes, you read that right) Red Bank Design Center designers prove they truly are on the cutting edge of outdoor design. They've scoured the finest and most durable pieces to elevate your space, while keeping the maintenance to a minimum.

MEET THE RED BANK DESIGN CENTER **GENERAL DESIGNERS™**

A masterful and accomplished team, the RBDC General Designers™ (GD) bring more to the table than your standard designer. We all know what a general contractor does, but if you're remodeling or reinventing space, you need a GD. A GD is more than someone who can make your space beautiful – they are someone who understands all of your needs and holds the vision for your entire project. Someone who does an in depth discovery to understand your vision and budget while bringing together and collaborating with everyone from the architect to the GC and subcontractors to give you a thorough, thoughtful plan. General Designers streamline the design process for any job and work as an advocate for the client's design preferences from start to finish.
